www.NoodlersInk.com

To fill:

cover nib, ebonite feed & section band
with the ink in the bottle - then
move filler rod two full strokes.

Clean excess ink with
paper towel &
filling is done.

Entire pen can be
disassembled and
reassembled by hand.

Parts are all threaded and no
tools are required.

Constructed out of a time proven resin
that remains one of the most tested and durable
in the history of fountain pens.

Fills with a two stroke self-filling unit or
with an optional reloadable 308 cartridge.

Rinse with ammonia and water when changing ink colors.
